For simplicity , the app is limited to either Naskh or Ruqaah Fonts.

The Gallery is a great encouragement especially for Users who have artistic trends. It also help raise a positive feeling from their learnin.

If Naskh Font chosen. خط النسخ .. sign appears

Scroller for alphabet letters with SPACING feature measured by the Arabic dot "NOQTAH"

This works like an exercise, once the user touch the upper letter correctly, he/she is regarded with information of the spacing downwards.

User can trace the letter and it colors itself to show direction and technique of writing

Rules are minimal and streamlined to allow reading in different reading situations, and then apply practice directly after each set of rules.

Fore example this screen shows difference between SEEN and SAAD letters writing techniques
